## Research in Progress

### Seeing the Language

Maciej Mroziak  
Is this just a gesture, or one of many iconic signs in Polish Sign Language, used by ca. 50,000 deaf people in Poland?

## Focus on

### Fullerenes and Nanotubes

Andrzej Huczko  
Nanotechnology is now rising to the fore of the most rapidly-developing fields of research. Nanomaterials manifest properties that differ from those characteristic for the morphology of bulk solids. Moreover, nanomaterials demonstrate certain phenomena that are unknown for microcrystal objects
