

# Bulletin of the Polish Academy of Sciences Technical Sciences (BPASTS)

Volume 72, No. 1 SPECIAL SECTION

February 2024

## CONTENTS: SPECIAL SECTION on IIoT and AI-based optimization

### **IIoT and AI-based optimization**

Dariusz Mikołajewski, Jacek Czerniak, Maciej Piechowiak, Katarzyna Węgrzyn-Wolska, Janusz Kacprzyk

### **The Internet of Things and AI-based optimization within the Industry 4.0 paradigm**

Dariusz Mikołajewski, Jacek M. Czerniak, Maciej Piechowiak, Katarzyna Węgrzyn-Wolska, Janusz Kacprzyk

### **A decentralized radio network for small groups of unmanned aerial vehicles**

Patryk Szywalski, Andrzej Waindok

### **An off-line application that determines the maximum accuracy of the realization of reference points from G-code for given parameters of CNC machine dynamics**

Bogdan Kwiatkowski, Tadeusz Kwater, Damian Mazur, Jacek Bartman

### **Wood-based composite materials in the aspect of structural new generation materials. Recognition research**

Anna Czajkowska, Tomasz Rydzkowski, Dorota Laskowska

### **Multifunctional clustering based on the LEACH algorithm for edge-cloud continuum ecosystem**

A. Paszkiewicz, C. Ćwikła, M. Bolanowski, M. Ganzha, M. Paprzycki, M. Hodoń

### **Three methods of selecting a smart meter for data concentration in the automatic meter reading last mile network**

Piotr Kiedrowski

### **Comparative study of experimental thermographic data and finite element analysis on temperature evolution of PET-G layer deposition during additive manufacturing process**

Łukasz Kowalski, Michał Bembenek, Andrzej Uhryński, Szymon Bajda

### **The solution of MRSLP with the use of heuristic algorithms**

Joanna Kocharńska, Anna Burduk, Dagmara Łapczyńska, Kamil Musiał

### **Mechanical properties of ABS samples manufactured under different process conditions**

Piotr Czyżewski, Dawid Marciniak, Dariusz Sykutera
